Terminase_1
Phage_portal
L_lactis_ph−MCP
Minor_capsid_2
Sipho_tail
Function unknown
Replication, recombination and repair
Cell wall/membrane/envelope biogenesis
Posttranslational modification, protein turnover, chaperones
Translation, ribosomal structure and biogenesis
Transcription
Signal transduction mechanisms
Nucleotide transport and metabolism
Energy production and conversion
Defense mechanisms
Cell cycle control, cell division, chromosome partitioning
Amino acid transport and metabolism
Others / unknown
