Para: Alice Kazuko Inoue Nagata <alice.nagata@embrapa.br>

Hi Alice,
Here's the e-mail from Álvaro (from his wife's account), confirming that he agrees with the species name.
Best regards,
Murilo

Dear Murilo

I am beyond thrilled to be mentioned and have the rename of the species as Potyvirus almeidense.
It is truly an honor to be remembered by the Study Group as I have always tried to bring any contribution to plant virology as much as possible.
I accept this honor with great pleasure.
Thank you so very much.

Best regards,
Álvaro Almeida
