

This form should be used for all taxonomic proposals. Please complete all those modules that are applicable (and then delete the unwanted sections). For guidance, see the notes written in blue and the separate document "Help with completing a taxonomic proposal"

Please try to keep related proposals within a single document; you can copy the modules to create more than one genus within a new family, for example.

MODULE 1: **TITLE, AUTHORS, etc**

Code assigned:	2013.006a,bP	(to be completed by ICTV officers)
Short title: Change the names of two species to remove hyphens (e.g. 6 new species in the genus <i>Zetavirus</i>)		
Modules attached (modules 1 and 9 are required)	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input type="checkbox"/> 6 <input type="checkbox"/> 7 <input type="checkbox"/> 8 <input checked="" type="checkbox"/> 9 <input type="checkbox"/>	

Author(s) with e-mail address(es) of the proposer:

Mike Adams (mike.adams@rothamsted.ac.uk)

List the ICTV study group(s) that have seen this proposal:

A list of study groups and contacts is provided at <http://www.ictvonline.org/subcommittees.asp> . If in doubt, contact the appropriate subcommittee chair (fungal, invertebrate, plant, prokaryote or vertebrate viruses)

Proposals approved by the Tombusviridae and Luteoviridae SGs

ICTV-EC or Study Group comments and response of the proposer:

Date first submitted to ICTV:

17 June 2013

Date of this revision (if different to above):

MODULE 8: **NON-STANDARD**

Template for any proposal not covered by modules 2-7. This includes proposals to change the name of existing taxa (but note that stability of nomenclature is encouraged wherever possible).

non-standard proposal

Text of proposal:

The latest (2013) version of the International Code of Virus Classification and Nomenclature includes the following rule:

3.13

Subscripts, superscripts, oblique bars and non-Latin letters may not be used in taxon names. Hyphens should not be used when attaching numbers or letters to the end of a series of species names and should never be used in names of genera, subfamilies, families or orders.

This proposal removes the hyphen from two species names to be consistent with this rule.

non-standard proposal

Code

2013.006aP

(assigned by ICTV officers)

Title of proposal: Change the name of the species *Pea enation mosaic virus-1* (genus *Enamovirus*, family *Luteoviridae*) into *Pea enation mosaic virus 1*

non-standard proposal

Code

2013.006bP

(assigned by ICTV officers)

Title of proposal: Change the name of the species *Pea enation mosaic virus-2* (genus *Umbravirus*, not assigned to a family) into *Pea enation mosaic virus 2*
